Sprint #3 Report

Face2Name

Things to Stop:
- Wasting time during development meetings
    - A lot of our time was spent in silence, not communicating with one another
- Miscommunication about when and where the scrum/development meetings are
    - A couple of times people showed up to the wrong places

Things to Start Doing:
- Right as everybody arrives at the meeting we need to start working right away
    - Everybody has strict schedules so we need to be efficient with our time
- Communicate in our group chat at least a couple days before the desired meeting date about when and where we should meet

Thing to Continue to Do:
- Continue to communicate about the progress we made with the code
- Continue to ask questions and ask for help among each other
- Continue to stay on top of all of the tasks

Complete User Stories:
- As a user, I want the app to be able to track faces on the screen
- As a user, I want the app to be able to identify faces on the screen
- As a user, I want to select a person's face on the screen and have the app retrieve their name from a local database
- As a user, I want to be able to assign a name to a person the app doesn't recognize

Work Completion Rate:
- 4/4 User stories completed
- 26 ideal hours completed
- 14 days in Sprint 2
- 0.29 User stories/day
- 1.9 Ideal hours/day
